SUPPORTIVE HOUSING BREAKS GROUND IN LLOYDMINSTER

With the Vegreville project now complete, RPAP is happy to report that another supportive housing facility in Lloydminster is on the path to construction. This project will provide a combination of studio and one-bedroom barrier-free units to the local seniors population. The projected completion date for this project is the fall of 2007 and we are confident that this project will be a valuable and much needed addition to the community. Watch for exciting developments in upcoming newsletters! ●

BIG NEWS

CENTURY PARK GRAND OPENING

RPAP's entire office attended the grand opening and ribbon cutting for the new 40 unit supportive housing facility in Vegreville along with dignitaries such as the Honourable Ralph Klein, Vegreville Mayor Richard Coleman, local politicians, representatives of East Central Health and many members from the community. We are very proud of this facility and hope that the residents will enjoy their new space for many years to come. So far we have received great feedback from the residents and community at large.

Great work team! ●

RPAP IN AVENUE MAGAZINE

Sometimes we like to toot our own horn and this is a good opportunity. Recently, a house designed by RPAP in the Belgravia neighbourhood was featured in Avenue

magazine. There were many great photographs of the interior and plenty of positive comments directed to the architect, in this case, Jonathan Rockliff. In case you didn't get a copy, here is a highlight from the article:

There's something quintessentially Albertan about the house. It's both constrained and ambitious. It has no showy pretensions, just space that is functional, comfortable and serene. It's a home designed for living.

UNDER CONSTRUCTION

- RPAP is finalizing the design of a 9 unit "seniors' friendly" apartment building for the Sundance Housing Co-operative in the Riverdale community of Edmonton.
- We were recently awarded the design for a new addition and renovation to the main entrance of the Muttart Conservatory. We'll soon be planting our design seeds for this project...
- Beginning work on a comprehensive Regional Master Plan for Northern Lights Regional Health Centre in Fort McMurray.
- Construction is progressing very well in Vegreville and Vermilion on two new Continuing Care facilities.
