LARCH PARK RESIDENCE

Last fall RPAP were invited to celebrate the completion of a new home we designed on the south side of Edmonton. It was great to get together with the home owners, the builder, their sub-trades, and the interior designer to see the finished product. The house was designed to meet the Government of Canada's Energuide rating of 86. We are proud to announce that the house has been tested and it has exceeded expectations with a rating of 91! The house looks amazing and we wish the owners many happy (and warm) years living in their new home. ●

BIG NEWS

RPAP SELECTED TO ASSIST STURGEON FOUNDATION

A few months ago RPAP were excited to be engaged by the Sturgeon Foundation to assist them with the planning of a number of larger and smaller projects. Sturgeon Foundation manages senior's housing facilities in the City of St. Albert, Sturgeon County, and the towns of Bon Accord, Gibbons, Legal, Morinville and Redwater. We look forward to working with them to meet their mission which is "to provide affordable, supportive living for seniors and other clients within a respectful and secure social environment". ●

ACCESSIBILITY APP

Many of us take for granted that when we leave the house for an outing we will have no issues gaining access to the places we want to go. For those with accessibility issues knowing what lies ahead can be a real benefit. The Rick Hansen Foundation has developed a smartphone application

called "planat". It's an online ratings tool that allows you to submit and obtain reviews on the accessibility of buildings and public spaces. Visit planat.com to post and search reviews on the accessibility of the places where you eat, shop, work and play. ●

UNDER CONSTRUCTION

- Renovations are underway and an addition to the Ft. McMurray Hospital is ready to begin construction.
- Design work has begun on a new affordable housing project in Morinville.
- Working drawings and sequential tendering are well underway for the Hay River Health Centre with piling to begin in April.
- Construction continues on the Lloydminster Continuing Care Centre.
- Construction is complete and residents are moving into the new Points West Living assisted living project in Cold Lake.
